SELLING YOUR HOUSE?
BUT WORRIED YOU WON'T GET
THE BEST PRICE?
WITH **@realty** [Click

Buy](#)

Selling your biggest asset can be quite daunting. You meet with agent after agent and they need you to choose - auction or private sale - before you know how much interest there is in your house. It's all based on guesswork.

THEN YOU'RE LOCKED IN!

With no option to adjust your strategy as interest in your property becomes known.

You have flexible options

With Click 2 Buy, you can adjust your strategy as interest builds. This flexible approach keeps your options open, providing a more dynamic approach to the sale of your house, and removing all guesswork from the process.

Using a conventional process sees the estate agent doing a heap of paperwork over days - and then updating you on how it's going only when they get a spare minute.

**IT'S THE LONGEST AND MOST STRESSFUL
COUPLE OF DAYS IN YOUR LIFE!**

You constantly check your phone waiting for an update

You're always kept in the loop

You can easily and securely see the highest offer on your house whenever you want AND you get notified when any new offer is placed. Simply access the website from any smart phone, tablet, laptop or desktop and view the offers as they happen.

And after all the stress, the sleepless nights and waiting by the phone, what if you don't get the price you wanted?

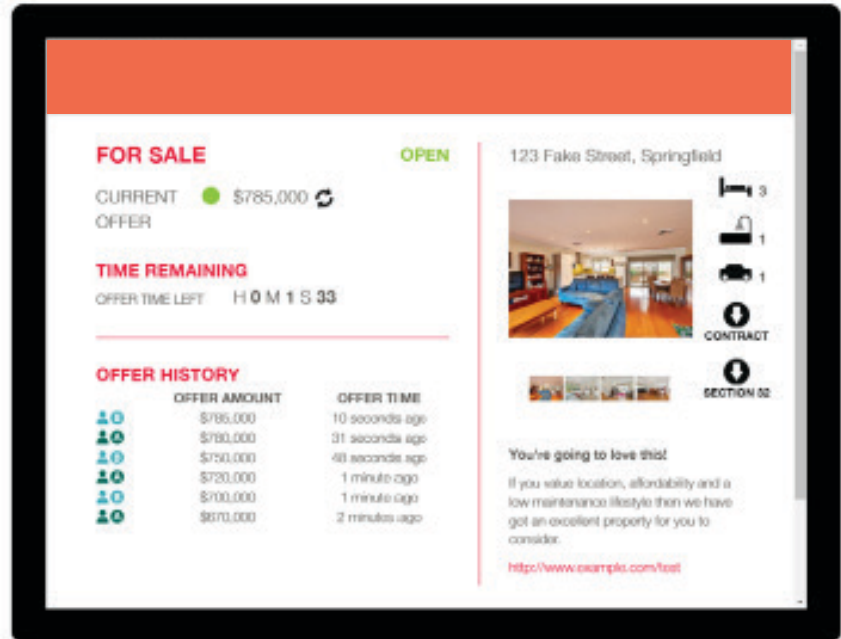

WHAT A DISASTER!

You're playing with a lot of money,
why wouldn't you want to maximize your property's sale potential?

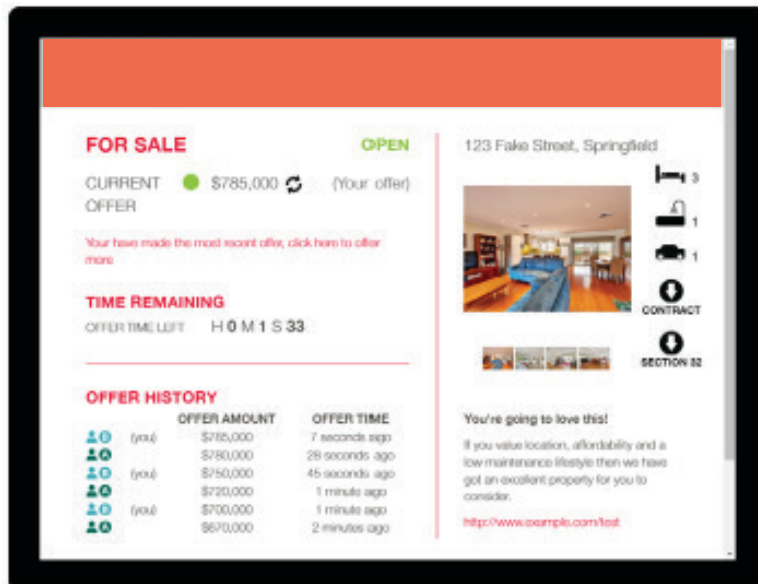

You have increased sales potential

WHAT YOU SEE

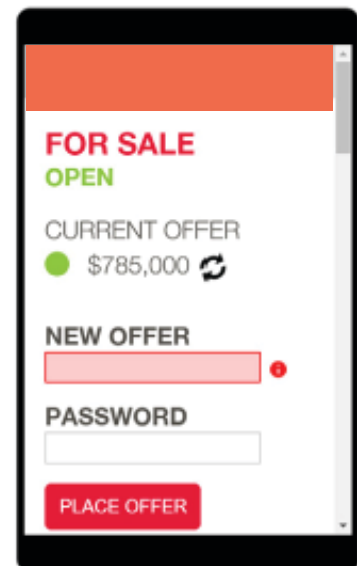

The offer process is so easy and quick for buyers that they can submit counter offers with the press of a button. They trust the process, so will submit offers until they've genuinely reached their limit, rather than because they lose trust in the estate agent.

WHAT BUYER 1 SEES

WHAT BUYER 2 SEES

By keeping your options open and providing a transparent, streamlined process to buyers, you're more likely to get the highest price possible for your valuable asset.

WITH @realty

Sellers win!

- Sellers can see offers live, on any device
- Sellers don't have to wait for updates
- Sellers experience low risk
- Sellers maximise the potential for a higher price than could be achieved using more conventional methods
- Sellers benefit from cutting edge technology
- Sellers benefit from working with agents that aren't stuck in the stone age

Click 2 Buy can be used
whether you have one buyer or multiple buyers interested

Buyers win!

- Buyers trust the process, so will continue to advance their offers
- Buyers can see offers and get notified when their offer is beaten
- Buyers have more information on where they stand and what's required to compete

It's a Win | Win
Which is a rare outcome in our industry, but a good one!

So many people have had success

“

[Click 2 Buy] was a very different experience but one which resulted in a fantastic outcome and we were extremely pleased”

Click 2 Buy is the perfect tool to assist in the sale of your house

A woman with long brown hair, wearing a white dress with a blue and pink floral pattern, is sitting at a wooden table in a cafe. She is smiling and looking down at a tablet computer she is holding with both hands. On the table in front of her is a black coffee cup on a white saucer, a blue glass of water, and a smartphone. The background shows large windows and some greenery.
